CAREER OBJECTIVE

Aspiring software developer with hands-on experience in building web applications using modern web technologies. Looking for a challenging role where I can apply my development skills, contribute to impactful solutions, and continuously improve my technical and problem-solving abilities.

EDUCATION

Siddartha Institute of Science and Technology, Chittoor **2023 - 2026**
B Tech (Bachelor of Technology)(Computer Science and Engineering (CSE) (8.46)

Govt.polytechnic for women palamaneru **2019 - 2022**
Diploma, Electrical and Electronics Engineering(69.42%)

K.G.B.V Amadagur **2018 - 2019**
Secondary School Of Certificate (9.7 CGPA)

SKILLS

Technical skills :- Python, HTML, MS-Office.
Analytical Skills :-Team Collaboration, Effective Communication, Time Management.

PROJECTS

Influencers Ranking and Engagement Analysis (Final Year Project)
Developed a data analytics project to rank social media influencers based on engagement and content performance using Python and Pandas.

- Performed data cleaning, preprocessing, and visualization for accurate performance evaluation.
- Created charts and dashboards to compare influencer growth and content performance.
- Generated insights to support influencer marketing and brand collaboration strategies.

Technologies Used: Python, Pandas, NumPy, Matplotlib, Excel, CSV Dataset, Jupyter Notebook.

Seamless appointment booking for health (June 2025 - August 2025)
Developed a web-based healthcare appointment booking system.Enabled users to schedule and manage doctor appointments online.

- Implemented dynamic interactions using **JavaScript and AJAX**. Improved user experience with a clean and easy-to-navigate interface.
- Integrated form validation and appointment confirmation features.

Technologies Used: HTML, CSS, JavaScript, AJAX.

INTERNSHIPS

Data Analytics Intern

EduNoVerse Tech Solutions | Feb 2026 – Mar 2026

- Worked on an Influencers Ranking and Engagement Analysis project using Python and Pandas.
- Analyzed social media engagement metrics and influencer performance data.
- Performed data cleaning, preprocessing, and visualization for insight generation.
- Created analytical reports and dashboards to support data-driven decision-making.

Technologies Used: Python, Pandas, NumPy, Matplotlib, Excel.

Smartbridge (Duration June 2025 - August 2025)

Gained foundational knowledge in Full Stack Web Development and implemented it through a project.

- The program focused on understanding core full stack concepts and applying them in a real-time project environment.
- Gained hands-on experience in developing and structuring web applications.

Technologies used :- Python

Progmaster Pvt Ltd (Oct 2023 – Nov 2023, Jan 2024)
Completed training in Python programming, covering core concepts such as variables, data types, control structures, functions, and basic problem-solving.

- Built a strong foundation in Python syntax and logical programming.
- Practiced writing Python programs to solve basic computational problems.

Technologies Used: Python, Basic Programming Concepts, Problem Solving.

INTERESTS

- Learning new technologies.
- Building web applications.
- Exploring programming concepts.

CERTIFICATIONS

Python Programming Certification
Progmaster Pvt Ltd — October 2023 – November 2023

Python Fundamentals Certification
Progmaster Pvt Ltd — January 2024
